

2013 DKT IMPACT
CYPs/ Women of Reproductive Age/CPR/ DKT Share
(excluding all abortion activities)

A	B	C	D	E	F	G
PROGRAM	DKT CYPs	Adjusted CYPs ₁	Women of reproductive age ₂	Modern method contraceptive prevalence (CPR) ₃	CPR from DKT programs (C/D)	DKT share of all modern method users
Ethiopia	2,442,890	2,213,668	22,300,000	27.3	9.93	36%
Philippines	2,621,835	2,676,862	25,300,000	34.0	10.58	31%
DR Congo	242,866	191,794	15,500,000	5.4	1.24	23%
Indonesia	7,101,520	6,797,406	66,900,000	57.9	10.16	18%
Mozambique	100,245	71,453	5,900,000	11.3	1.21	11%
India (Bihar)	1,363,085	1,096,446	40,837,000	28.4	2.68	9%
Egypt	2,891,935	962,516	21,000,000	57.6	4.58	8%
Ghana	190,624	69,345	6,700,000	23.4	1.04	4%
Brazil	1,302,381	1,302,381	54,900,000	77.1	2.37	3%
Vietnam	264,325	316,590	26,000,000	59.8	1.22	2%
Mexico	399,941	244,630	34,000,000	66.5	0.72	1%
India (Mumbai) ₄	2,892,288	1,662,076	282,763,000	62.1	0.59	1%
Turkey	146,437	64,893	20,300,000	46.0	0.32	1%
Pakistan	283,562	83,475	47,300,000	26.0	0.18	1%
Thailand	61,821	40,740	18,100,000	77.5	0.23	0%
China	1,058,455	523,885	372,400,000	84.0	0.14	0%
TOTAL	23,364,210	18,318,160	1,060,200,000			

NOTES

1. Abortion is not included in the PRB (or DHS) enumeration and is thus eliminated here. IUDs and implants are assigned multiple CYPs in the year sold/inserted. This multiplier is reduced here (70% for implants; 65% for IUDs) to reflect an estimate of current users, including users from prior year insertions. **2.** The number of women of reproductive age is based on *all* women of reproductive age, not just those who are married/in a union (which is the denominator in determining CPR). PRB's Family Planning Worldwide Data Sheet (2013) is the source for WRA: http://www.prb.org/pdf13/family-planning-2013-datasheet_eng.pdf We've therefore underestimated DKT's impact (column G) by accounting for all women of reproductive age (column D) -- not just married women/ women in a union. **3.** All figures for column D and E are from PRB (2013) except India Bihar-IDHS (2008). **4.** India/Mumbai WRA was extrapolated from the total number of WRA of India minus Bihar. The CPR of India/Mumbai comes from India Maharashtra- IDHS (2008).

DKT Contribution to CPR in Select Countries 2013

**Percentages in parentheses represent the proportion of women using modern method contraception who were served by DKT in 2013.*
