

HIV/AIDS Statistics from DKT International Countries as of March 2016

	Number of People Living With HIV	Country Population (in millions)	Adults Aged 15-49 Prevalence Rate (%)	Incidence (infection rate)	Change Over Time
Brazil	805,000	205	.55		Decreasing
China*	780,000	1,372	.10		Stable
DRC*	450,000	73	1.00		Stable
Egypt	8,800	89	.10		Stable
Ethiopia	730,000	98	1.20		Decreasing
Ghana	250,000	28	1.50		Decreasing
India*	2,100,000	1,314	.30		Decreasing
Indonesia	660,000	256	.50		Increasing
Iran	74,000	79	.10		Stable
Mexico	190,000	127	.20		Decreasing
Mozambique	1,500,000	26	10.60		Decreasing
Myanmar	210,000	52	.70		Stable
Nigeria	3,400,000	182	3.20		Decreasing
Pakistan	94,000	199	.10		Stable
Philippines	36,000	96	.10		Stable
Senegal	44,000	15	.50		Decreasing
Tanzania	1,400,000	52	5.00		Decreasing
Thailand	450,000	65	1.10		Decreasing
Turkey	4,600	78	.10		Stable
Uganda	1,500,000	40	7.30		Increasing
Vietnam	250,000	92	.50		Stable
TOTAL	14,936,400	4,537			
New infections globally (global incidence)		2,000,000			
Adults Aged 15-49 Prevalence Rate World Wide		0.80%			
People living with HIV/AIDS Globally		36,900,000			
Total Cases in DKT Countries		14,936,400			
Cases in DKT Countries as % of Overall Burden		40.48%			

Key

Prevalence Rate : Number of people with the disease at a given time / Number of people at risk

Incidence/Infection Rate :Number of new cases in a fixed time period / Number of people at risk
