

DKT International Supplier Policy

April 2012

DKT International procures goods and services from a wide range of suppliers internationally. By and large, responsibility for procurement rests with DKT affiliate offices in the countries where DKT operates. DKT welcomes long-term partnerships with high-quality suppliers based on integrity and mutual benefit. Interested suppliers are invited to contact DKT affiliate offices accordingly.

DKT International does not allow any supplier relationship that includes granting of valuable favors to employees or representatives of DKT International and DKT affiliates by suppliers or their representatives. This includes kickbacks, under-the-table money, or goods and services-in-kind of a significant nature in return for expected or actual sales contracts.

If evidence is uncovered that a supplier is engaged in such practices, the supplier will be blacklisted from doing business globally with DKT.
